REPORT OF THE TRUSTEES OF THE JAMES A. TUTTLE LIBRARY JAN. 31, 1935

During the past year the library has been presented with a collection of paintings of flowers and hand painted china from the estate of Francis Mary Steele who was born at the North Branch January 8, 1839 at the place now owned by Alice E. Welsman. Miss Steele moved to Amherst, N. H., when she was a young woman and later she resided in Boston, devoting much of her time to the study of art. This collection, which was the work of Miss Steele, was left in the hands of Alice Cheney Baltzell of Wellesley, Mass., and it was through her interest and generosity that these pictures were placed in our library. Mrs. Baltzell had the upper library hall re-decorated, and the pictures framed and hung.

The trustees wish to call the attention of the townspeople to the fact that the income from the invested funds of the library will probably be about $100.00 less this year than formerly, due to the low interest rates now prevailing. There will also be an extra expense this year of about $120.00 for insurance. This will be partially offset by the fact that there will be no magazine subscriptions to pay this year and probably a smaller repair bill. In order to maintain the preesnt service we should have an appropriation of $500.00 from the town for the ensuing year.

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS OF ANTRIM

To the School Board of the Antrim School District, the annual report of the Superintendent of Schools for the school year 1933-1934 is respectfully submitted:

There was no change in the teaching corps of the Village School and High School. It was deemed advisable not to open the East Antrim School this year, so that the only outside schools were at the Center and North Branch.

The following "Report of Teachers" as presented to the State Board will be of interest:

Name	Grades	Salary	State Approval	Training
Charlotte E. Balch	5-6	855	C	Lowell Training
Margaret Bennett	High	1080	C	K. N. S.
Anne Carlson	High	1125	C	Radcliffe
Thomas C. Chaffee	High	1890	C	Brown
Helen Crosby	No. Branch	810	C	K. N. S.
Jessie Black	No. Branch	810	C	K. N. S. (S. S.)

Gertrude Mulhall	1-2	855	C	K. N. S.
Louise Murdough	7-8	900	C	K. N. S.
Gladys Phillips	Center	810	C	K. N. S.

* These teachers are engaged for part time.
S. S. means summer session.

All our teachers have been with us three years or more. Their average term of service in this district is 9 years, and their average teaching experience is 16 years. All but three had teaching experience before coming to us.

	Days	Ave. Attendance	Average Absent	Ave. Membership	% of Attendance	Tardiness cases	Tardiness per pupil	Parents' Visits	Committee's Visits	Supt.'s Visits	Honor Pupils

All but one of our schools had 177 days of school, whereas 180 is the acceptable minimum. The attendance at the North Branch was the best, and in the high school the poorest. It is worthy of note that there was only one case of tardiness during the school year in Mrs. Murdough's room. Congratulations for this are due the parents, pupils and teacher, because all three must have cooperated to gain this result. It is interesting to notice the number of visits in the village school; the largest number being in the smallest grades, and the smallest number in the high school. Encouragement by visits is as desirable in the high school as in the grades. There were a large number of Honor Attendance pupils in Miss Balch's and Mrs. Murdough's rooms.

Commencement exercises were held at 2:30 P. M. on June 15 with the following program:

Graduates' names are preceded by an (*).

It is always helpful to compare our schools with other schools in the state. The opportunity for such comparison is given by the State Department's report of High Schools. From these reports we find that 8% of our high school pupils failed in more than one study while 5.7% was the state average. Our % of attendance was 93.6 while 96 was the average. We had 1.6 cases of tardiness per pupil while the state average was 1.1 cases. We have 13 pupils per teacher and the state has 21 pupils per teacher. The number of our high school graduates was 56% of the number in the class when it entered high school, while the figure for the state was 62.9%. Our high school session was 177 days while the state average was 178. We are striving for 180 days.

There are certain standards for amounts of supplementary reading which may be done in given studies. Our

high school is complimented in this report because in two or more history classes there were 100 pages read in excess of the standard. In sending the Antrim High School Approval for the coming school year, Deputy Commissioner May says, "In looking over the Work Reports of Antrim High School (for 1933-1934) the following are especially commendable: (1) Reading of 200 pages of supplementary material in the class in French 1 and the same amount in French II, (2) Performance of 350 originals in Plane Geometry, (3) Exceeding the supplementary reading standards in Modern European History, United States History and Sociology, (4) The reports for work in United States Constitutional History and Sociology were especially commendable.

Sixty-one New Hampshire high schools offer a course in Stenography and 65 offer a course in Typewriting. There appears to be a desire on the part of many parents to have these subjects offered in the Antrim High School. Typewriting surely has great practical value, is very useful in many walks of life, offering an opportunity for successful accomplishment to many pupils. Stenography is also decidedly useful, and is an excellent vehicle for mental training. Parents of 21 pupils have indicated a desire to have them take Stenography, while parents of 30 pupils desire them to take Typewriting. If we could be assured of classes containing, for a number of years, even two-thirds of those numbers, I would strongly recommend those courses. Before introducing Stenography and Typewriting we should, if possible, be assured of their continuance in classes of reasonable size for a number of years. It would not be advisable to invest in necessary equipment if the course was to be given up in a few years because of lack of membership.

A movement was begun last year which if continued for two or three years would result in having a uniform set of basal texts in all of our schools. It is well to have a variety of reference books and supplementary texts, but there should be uniformity of basal texts. Last year saw us using the Frye-Atwood series of Geographies. This year an up to date series of readers, "The Pathway to Reading," was introduced in all our schools after the teachers and Superintendent had together examined many of the newer books. It is true that we have a variety of supplementary readers, and that is as it should

be, but we are all using as our basal text "The Pathway to Reading Series."

As this report goes to press we are considering the unification of the basal texts in Arithmetic and Health studies.

We again thank those teachers who have so willingly and faithfully cooperated in every way in our work for the young people of our town.

Respectfully submitted,

A. A. HOLDEN,
Supt. of Schools.
